Maggie's Dream is a **501©3** nonprofit charitable organization that provides support to individuals with cancer and facing the impact treatment to survive that may result in their inability to have children when they are victorious over the disease. Insurance and Medicaid programs do not fully support planning for the future and the costs can be devastating. We are a 100% volunteer led organization and every dollar raised goes back to the courageous young people battling cancer and conquering it to know when the time is right, they can pursue the gift of family.
